Washington D.C.

Dear Sir :- Your letter of Feb. 16th addressed to the Yuma Date Nursery has just come to hand.

In reply I will say that we do not have any catalogue published as we handle practically the one variety of dates palms and usually have orders one or two years in advance.

If there is any information that would be of service to you regarding our nursery it will be gladly furnished but at present about all that we can give is the fact that we make a specialty of the Deglet Noor variety, have a few Itteenas and have just started a small nursery of the Hayana variety and expect soon to start with some Saidas at Yuma.

We have here near Indio a consignment of the Saidas that were brought over from Egypt last year and we will have offshoots from these for sale in a few years.

Yours truly,

C.E. Cook.
